

PROLEVEL
ROOFING

RESIDENTIAL AND COMMERCIAL ROOFING CONTRACTOR

SERVING CENTRAL FLORIDA

ABOUT US

**Come visit our showroom at
99 N. Central Ave.
Oviedo FL 32765**

PROLEVEL ROOFING is Central Florida's leading choice for residential and commercial roofing services. We truly care about our customers, we care about their families, and we care about their homes and businesses. We serve you with a team of dedicated, highly trained professionals committed to delivering quality results. We are proud of our excellent reputation.

Owner Justin Solitro is a Florida native and University of Central Florida graduate. He is a licensed Professional Engineer, Certified General Contractor, and Certified Roofing Contractor in the State of Florida. With over 10 years of experience as a structural engineer, Justin encountered the best practices and worst practices in roofing. Justin quickly identified the need for a roofing contractor committed to quality installations and willing to stand behind the work they provided.

Our great products are complemented by superior workmanship thanks to years of experience in roofing, structural engineering, and general contracting.

“

Called to have an inspection done before undertaking a project. They came over and took a look at my roof and told me it was in good shape. A+ for honesty as I've come across the fly by night operations that just want a quick buck. They were on time and professional in my interactions.

Anthony N.

“

I cannot say enough great things about this company. From day-1 of calling to gain information about my options, to receiving my final bill for roof replacement completion, **PROLEVEL ROOFING** staff were helpful, on time, respectful, and overall just a great group of people.

Lindsey K.

“

Couldn't have asked for the process of our new roof to go any smoother! They came out for an estimate quickly, had very competitive pricing, a super friendly group of guys, and did a super job on the install of our roof.

Matt E.

“

Chris and Justin with **PROLEVEL ROOFING** were fabulous! They were not only the best value for my new roof replacement, but they did exactly what they promised!...we were thrilled with the finished product... Great service and workmanship!

Kim A.

OUR SERVICES

- ↗ Protect fascia and soffits
- ↗ Redirect runoff from entry ways and access locations

STEEP SLOPE ROOF INSPECTIONS

A professional and thorough roof inspection is the only way to ensure a roof repair or replacement gets done properly. The technicians at **PROLEVEL ROOFING** know how to identify even the most inconspicuous conditions, whether the damage is related to a severe storm, or it's from regular wear and tear. Our attention to detail makes the difference.

Visually inspect your roof for cracked, torn, bald, or missing shingles.

1

2

Scan the roof for loose materials or wear around chimneys, vents, pipes, etc.

3

Examine drainage, ensure gutters and downspouts are secured. Ensure drains are open and allow water to flow and gutters and downspouts are free of obstructions.

4

Look out for excessive shingle granules in gutters. This is an indicator of advanced wear.

5

Beware of dark spots or trails.

6

Look for signs of water damage/leaking.

7

Look out for outside light showing through roof.

FLAT ROOF INSPECTIONS

A professional and thorough flat roof inspection is the only way to ensure a roof repair or replacement gets done properly. The technicians at **PROLEVEL ROOFING** know how to identify even the most inconspicuous conditions, whether the damage is related to a severe storm, or it's from regular wear and tear. Our attention to detail makes the difference.

Visually inspect the roof system to identify open seams in roof covering.

Check seals around roof penetrations and mounting around roof-top equipment such as HVAC units.

Closely examine roof membrane for punctures, rips, tears, and loose or wrinkling surfaces.

Ensure gutters, and downspouts are secured. Clear blockages of scuppers, drains and allow water to flow free of obstructions.

Analyze causes for excessive water retention or "ponding."

Locate signs of water damage/leaking.

Detect outside light showing through roof.

STORM DAMAGE

PROLEVEL
ROOFING

HAIL DAMAGE

Hail damage to shingle roofs takes the form of circular indentations with fractures to the shingle mat and loss of protective surface granules. Hail damage can lead to roof leaks if not addressed promptly. **PROLEVEL ROOFING** can identify hail damage during our thorough roof inspection.

WIND DAMAGE

Strong winds can actually lift shingles off the roof decking. Even the loss of one shingle can lead to extensive damage, sooner or later. Wind can also compromise the underlayment which is key to a roof's water-shedding capability.

INTO THE ROOFING DECK

If you have missing or damaged shingles, there's an increased risk of moisture penetrating into the roofing deck and attic space. This moisture can collect inside the rafters and insulation, promoting bacterial growth which is a health hazard. Let us replace missing shingles before moisture damage takes hold.

SIGNS OF ROOF DAMAGE

-  Missing shingles exposing the roof underlayment
-  Cracked shingles from overexposure to UV rays
-  Improper installation from a previous roofing contractor
-  Noticeable wear and tear from general aging

-  Fallen limbs atop the roof
-  Prolonged contact to foliage making contact with your roof
-  Obstructed or misaligned gutters
-  Bacterial growth on roof shingles
-  Warping of roof decking

COMMERCIAL SERVICES

RETAIL & OFFICE BUILDINGS, APARTMENTS, WAREHOUSES

PROLEVEL ROOFING works with property managers, building owners, HOAs, and others. We repair, replace, and maintain roofs for commercial, residential, and municipal buildings. From roof leaks to tenant complaints, we meet the needs and exceed the expectations of our clients.

NEW CONSTRUCTION AND ROOF REPLACEMENTS

Rely on **PROLEVEL ROOFING** for all your commercial roofing needs. Whether putting finishing touches on a brand-new commercial building or maintaining an older one, we'll quote your new roof or roof replacement fairly and accurately. We have the capabilities to install the most common commercial roofing systems including TPO, metal, shingle, tile, and more.

STORM DAMAGE RESPONSE

If there is any reason to believe your commercial roof has been impacted by hail, wind, or other extreme weather events, **PROLEVEL ROOFING** can provide a thorough roof system inspection and prepare a detailed restoration proposal. Then, we'll perform the work you need with efficiency and careful consideration of your business to avoid disruptions.

FREQUENTLY ASKED QUESTIONS

Q HOW DO I KNOW IF I NEED A NEW ROOF?

A Sometimes, this answer is obvious: a hole in your roof, missing shingles, leaks, or animals living in your attic. Other times, the signs you need a new roof are little more subtle. If your roof is reaching the end of its average lifespan, it may be time to get a replacement and get ahead of any problems that result from a damaged roof.

Q HOW LONG WILL IT TAKE TO REPLACE MY ROOF?

A The timeframe to replace your roof depends on several factors. Once a contract is signed, our team immediately begins the permitting process. Depending on the building department, the permit can take anywhere from 1-2 days to over a week to receive. Once the permit is received, our team works on ordering all the roof materials and scheduling the crew. This entire process usually takes 3-4 weeks to complete. Once the crew is onsite, the typical timeframe to complete your roof is 2-3 days for an average size shingle roof project, and 7-10 days for an average size tile or metal roof project. Large commercial projects can take several weeks to complete.

Q HOW MUCH DOES A NEW ROOF COST?

A Every roof is different, so every roof costs a different amount. When considering the price of your new roof, roofing contractors take a few factors into consideration: size, old roof removal, style, shape, materials, and other features like chimneys, skylights, and vents that they need to work around. A roof replacement is a big investment, and giving a quote without examining your unique situation would not be in our customers' best interest. However, once the price of your new roof is calculated, there are plenty of ways to finance your roof, making paying for your roof replacement easy and affordable.

Q CAN I FINANCE MY NEW ROOF?

A Yes. If you need financing support for your roof, we have you covered! It's a simple process that requires less than 30 minutes to complete. We provide financing with low, fixed monthly payments & no prepayment penalties. You can request up to \$100,000 and the pre-qualification doesn't affect your credit.

Q STILL MORE QUESTIONS?

A Contact the **PROLEVEL ROOFING** team today or visit us online at www.prolevelroofing.com to learn more about our options, offers, and to request an estimate.
